This adapter makes it possible to use VESA holes that are otherwise difficult or

impossible to access.

With the VESA adapter, you can easily attach your monitor of various brands to a monitor arm with a VESA hole pattern (100 x **100mm**). Use the screws supplied for this.

If you want to attach your VESA adapter directly to the wall, use suitable screws and wall plugs (**not included**).

# Important Safeguards

Please read these instructions carefully and keep them for future reference. If you pass the product on to third parties, these instructions should always be included. Failure to follow these instructions may result in injury or damage to persons or the product, for which we cannot accept any liability.

## IMPORTANT - KEEP FOR FUTURE REFERENCE.

- This product should always be used in accordance with the specified safety instructions.
- Do not install your VESA adapter in combination with the monitor in places where there are people below.
- Do not exceed the maximum weight of the compatible monitor models as this may result in serious injury or damage to property.
- Observe the maximum ambient temperature of 35°C when using the product.
- Do not mount the VESA adapter near a heat source or in direct sunlight, as this could heat up the adapter.
- Check whether your mounting point (e.g. monitor arm) can withstand the weight of the monitor with VESA adapter.
- The product is designed exclusively for mounting with a hole pattern of 75x75 mm.
- After installing the VESA adapter, the position of the monitor must be readjusted to ensure correct ergonomics.

### CAUTION

**Ensure that the device is switched off and disconnected from the power supply before installation to avoid possible injury or damage.**

## 1. Before First Use

Check the product carefully for possible transport damage and for the absence of accessories, such as screws, which should be included in the scope of delivery.

### CAUTION

**Make sure that packaging materials and small screws and parts contained therein are inaccessible to children to minimize the risk of choking and other risks.**

## 2. Maintenance and Cleaning

### 2.1 Maintenance

- It is recommended to check every three months that all screws are still tight. Also, regularly check the condition of all components of the product.
- Store the product in a cool and safe place, ideally at a maximum storage temperature of 40°C. For additional safety, keep the product away from children and preferably in its original packaging.
- Avoid any vibrations and shocks so as not to affect the life and functionality of the product.

## 2.2 Cleaning

- No corrosive or hot cleaning agents should be used to clean the product. Likewise, wire brushes, metal or other sharp materials are unsuitable for cleaning and should not be used.
- For gentle and effective cleaning, the use of a soft, damp cloth is recommended.

## 3. Waste Disposal

For the disposal of this product we recommend to contact the responsible local authorities or disposal services. They can provide you with detailed information on available disposal options and recycling centers in your area.

## Scope of Delivery Accessories

**1x** Spacer 100x100mm

## Horizontal / Vertical Alignment

Not all VESA adapters and monitors are suitable for vertical alignment. (upright)

This is due to the geometry of the adapter / monitor, which in some cases cannot be achieved in any other way.

We would like to point out that this information should not be disregarded under any circumstances, as the adapter will very quickly reach its durability limit if it is not mounted as specified.

We always try to develop monitors for vertical (upright) mounting.

The standard orientation of a monitor is horizontal.
